

# EXERCISE 3

## GD350 - INTERFACE & STRUCTURE // FA19

Homeroom: <https://homeroom.pnca.edu/sites/5173>

Instructor: Michael Gubitosa // [mgubitosa@pnca.edu](mailto:mgubitosa@pnca.edu)

---

### DESCRIPTION

Create a **single-page responsive** portfolio site with special focus on using flexbox, checkbox/radio hacks, transitions, and animations. Feel free to use any potential client that has a portfolio of work, yourself included\*.

*\*All included content need be real - no placeholder images or text will be accepted.*

### GUIDELINES

#### “PORTFOLIO” LAYOUT

- ② Include **at least 9 portfolio items** that stretch to fill the entire display viewport. Each item should contain an image, distinct color, stylized words, etc.
- ① The logo/identity of your client should be integrated into the site somehow; be it in one of the portfolio items or prominently displayed elsewhere
- ① One item should contain information about the client. Include at least one paragraph about them and contact information with icons (revealed on click)
- ① Most, if not all, items should have a hover state. At least 3 of them should have a unique hover state that differ from the others
- ② Most, if not all, items should have a clickable state that expands or reveals additional content about the item clicked
- ① Your name, GD350 FA19, and Exercise #3 should be integrated into the site somehow, be it in one of the portfolio items or elegantly displayed in the footer

#### MEDIA QUERY

- ② Include **at least one media query** that resizes all applicable site elements to be easily clicked and read. Site breakage will deduct points.

### GRADING

**Design (5):** Adherence to exercise guidelines

**Quality of code (3):** Implementation of HTML & CSS

**Graphics (1):** Clarity, originality, attractiveness, & relevance to topic

**Delivery (1):** Files in correct locations, linked properly, & turned in on-time

All of your images should be saved locally (not pointing to files online).

All of your completed files (HTML, CSS, and images) should be zipped up and uploaded to the Exercise dropbox by class on **6 Nov 2019**.
